

Week Eight Wrap up!

We are convinced after this week that many of our campers are future actors or salespeople as our week "Behind the Scenes" was amazing! They spent lots of time developing characters, props and scripts for their commercials or skits. We did interviews, sold sneakers, scooters, "diet" water as well as saved the world from monsters and did rescue missions! It was so fun to watch. We have clips available and hope to send to parents (once camp ends and we can organize them in a file). We also went to Fun America, had some water balloon fun as well as our usual weekly activities of swim, tennis and fitness lessons!

Next weeks theme is **Wacky and Tacky** week!
